

## Media • Publishing • Technology

Stephen-Bradford's Media, Publishing and Technology Practice understands the unique relationship between media and how the consumer interacts with advertisers, content and technology. We place professionals who are on the cutting edge of the convergence of media with forces such as analytics, social, local and cloud. These candidates bring our clients a new set of tools, driving corporate performance and edging out the competition.

**Judy Miller, Senior Director**, leads Stephen-Bradford's Media, Publishing and Technology practice. She focuses on placing senior level talent for media, digital technology and content publishers across all platforms. Judy partners with her clients to find the best talent to suit their needs and personally handles all searches. Judy is a veteran of the media industry, having served in various leadership positions at Penton's Electronics Group and Reed/Elsevier including management of magazines, websites, conferences, trade shows and information businesses. A recognized expert in content marketing, Judy spent the past four years as Business Development Consultant for the Content Council. This valuable experience provides her with the ability to understand the unique needs of her media clients as well as the complexities of the positions she's hired to fill.
