With Plotmaster's "Newly" designed Grain Drill the user can "row" plant. This design also gives the user the option to use the Grain Drill, Metal Drag and Cultipacker all at once or independent, depending on what application method is desired.

Chisel Plow Attachment comes standard with the unit and 3 “S” tines. The (3) additional “S” tines are included with the Grain Drill Kit to convert the unit into a (6) Row Planter

There are (2) Sets of dispensing bars that affix to the “Y” bracket mount under each seeder, each dispensing bar has (3) metal tubes that join the flex tube and then is secured to the rear of the “S” tine so the seed falls directly into the furrow
