

DURA-TECH

by: GM Wood Products

THE NEXT GENERATION OF HIGH PERFORMANCE DOOR FRAMES.

STAND UP TO THE ELEMENTS

Built on the very successful rot resistant Alaskan Yellow Cypress bottomed **DURA-FRAME** product line, **DURA-TECH** raises the standard of exterior finish performance at a competitive price.

DURA-TECH is a cutting-edge product that is truly unmatched by any other frame system on the market.

- **DURA-TECH** is a 12 mil rigid PVC film bonded with permanent waterproof exterior polyurethane glue to our **lifetime rot resistant DURA-FRAME** substrate system.
- **DURA-FRAME™** is: Alaskan Yellow Cypress, one of the planet's most durable **rot resistant** woods, finger jointed to the bottom of a premium pine frame component.
- **DURA-TECH** offers the strength and rigidity of wood with the low maintenance attributes of PVC components.
- **DURA-TECH** offers versatility in your finishing options. The UV resistant, impact resistant white with a light stipple finish is a low maintenance prefinished product that can be installed as is, or painted as desired with exceptional results. **DURA-TECH will make paint peeling issues a thing of the past.**
- **DURA-TECH** is offered in a tan **stainable woodgrain** embossed finish for stained fiberglass applications. It is made from the same 12 mil **impact resistant** rigid PVC film and is designed to be stained and protected by UV resistant topcoats which require some maintenance over time.
