

CHROMEWELD FLOW

A UNIQUE PIPING SYSTEM

- OVERLAY PIPING SYSTEM FOR ABRASIVE MATERIAL MOVEMENT
- A VARIETY OF DIAMETERS AND TYPES AVAILABLE TO CUSTOM FIT YOUR SPECIFIC APPLICATION
- OVERLAY THICKNESSES AVAILABLE FROM 1/8" – 3/8"

ISO 9001:2008 Certified

JADCO CHROMEWELD FLOW OPTIMUM PERFORMANCE WEAR PIPE

CHROMEWELD FLOW

CHROMEWELD FLOW is a unique piping system that is ideal for material movement with high levels of abrasion resistance. It is a premium grade of chromium carbide wear pipe, providing up to ten times the life of a carbon steel pipe.

The JADCO process produces a microstructure consisting of fully austenitic matrix filled with primary carbides. This structure provides outstanding abrasion resistance in the most challenging applications.

- Diameters are available from 5" to 48"
- Hardness 52-56 HRC
- Flanges available per application
- Abrasion resistant up to 1100°F
