**THE BENCHMARK FOR**  
**outdoor** *Elegance*

Thermory® is not for everyone, but for those who appreciate a distinguished exterior hardwood, it has no equal.

## THE BENCHMARK FOR THE INDUSTRY

For the past 15 years, extraordinary European and world-renowned architects and designers have relied on Thermory® to provide the ultimate expression of excellence for their exterior projects. With unsurpassed stability, performance and rot resistance, combined with its captivating beauty and elegance, Thermory® truly sets the benchmark for both thermally-modified woods, and exterior hardwoods alike.

Thermo-treated wood

## THE BENCHMARK FOR DURABILITY & PERFORMANCE

- Thermal modification changes cell structure to reduce wood's absorbency
- Less likely to warp, check, bow, cup or twist
- Resistant to rot and decay for 25 years or more
- Class 1 durability rating
- Termite resistant

## THE BENCHMARK FOR STYLE

Each Thermory® plank is a masterpiece by itself, with natural beauty magnified by mechanical perfection. Taken together, these individual, exceptional boards combine to create an architectural gem with an elegance that is sure to outlive passing trends. Thermory® has come to define an understated, timeless look that can be effortlessly incorporated into almost any architectural or design style.

## THE BENCHMARK FOR SUSTAINABLE LUXURY

Our mission is to deliver sustainable luxury.

Thermory® products are not only unrivaled in aesthetics and performance, but also in environmental responsibility. For over 15 years Thermory® has been an industry leader in thermal modification, investing in the latest technology and fostering innovation in thermo-treatment, manufacturing and installation techniques. Thermory® has reached our ultimate goal — to develop an environmentally responsible solid hardwood product that delivers unrivaled luxury and out-performs the finest tropical woods.

### ENVIRONMENTALLY RESPONSIBLE:

- 100% harvested from sustainable, renewable, North American forests
- All-natural, chemical-free thermal modification process
- With its stunning, exotic color, Thermory® is a responsible, yet sophisticated alternative to materials sourced from endangered rainforests

## THE BENCHMARK FOR PRECISION

The linear precision achieved by the machining process allows for quick and seemingly effortless installation.

# THE BENCHMARK FOR INNOVATION

## **Boundaries broken. Full potential unleashed.**

Thermory® supports artisans with a passion for the unexpected. With an unmatched flexibility in applications and a sophisticated look that complements projects ranging in style from classic to modern, Thermory® is the exterior hardwood of choice for the most ingenious designers and architects. Applications are limitless, including:

- **Decking**
- **Porch Flooring**
- **Cladding**
- **Fencing**
- **Interior Flooring**
- **Sauna Components**

**Exclusive Engineering.**  
Fast installation. Reduced waste (over 98% yield). Thermory's® exclusive locking JEM Joints™ span decking and porch flooring joists. 100% clear deck boards and meticulously straight lines, Thermory® is an exterior product worthy of any interior.

### Expansion Beads™

**Symbol of Innovation.**  
Enhanced by our exclusive Expansion Beads™, Thermory's® proprietary tongue & groove profile is an innovation that challenges the elements. Thermory's® Expansion Beads™ are designed to minimize warping and buckling by compensating for environmental stresses related to moisture.
