

PLOTMASTER™ – The Ultimate Planting Machine

**“Save Valuable Time, Money, and Effort
with ONE Piece of Equipment that can do it ALL!”**

Small Farming/Gardening uses:

- Preparing and Planting Gardens and Row Crops with Row Planter
- Deep Tillage with Moldboard Plow Attachment
- Planting all Types of Cover Crops

Equestrian uses:

- Riding Rink Maintenance
 - Break up hard, compacted soils
 - Drag, level, and smooth for improved footing for horses
- Grass Planting & Pasture Reseeding
 - VERSA-Seeder perfect for small and/or fluffy grass seeds
 - Periodic over-seeding of pastures
 - Erosion control & pasture aeration

Landscaping/Construction uses:

- Rake stones, roots and other debris from fresh building lot
- Level out contours and ruts left from construction
- Prepare smooth, soft seed bed for sod laying and/or grass reseeding
- Roll and compact fresh laid sod
- Planting grass seed and/or wild flowers
- Great for small areas and/or lots

Vineyards and orchard uses:

- Perfect size for planting bug attracting crops between rows to keep bugs off trees
- Maintain roadways and trails
- Easily plant wildlife mixtures to keep wild game from eating cash crops

Forestry uses:

- Prepare and maintain logging roads and accesses
- Prepare and level hard, compacted landings
- Decrease erosion and plant for wildlife in wooded areas
- Increase land value by establishing wildlife food plots in wooded areas
- Fits great between narrow tree rows to clear out unwanted weeds/trees and maintain plots without damaging trees
- Prepare firebreaks for controlled burns

Local Government uses:

- Cultivate and plant with grasses and/or wild flowers for aesthetically pleasing areas
- Prepare, maintain, and drag ball fields
- Plant or over-seed with minimal tillage
- Interstate median wild flower plantings
- Perfect size for low disturbance fire break maintenance and fire control
- Can be used to establish Native Warm Season Grasses (NWSGs) for erosion control

Sportsmen/Conservation uses:

- Everything you need to make a complete wildlife food plot for hunting, nutrition or wildlife viewing areas
- Planting NWSGs for wildlife
- Planting for erosion control projects
- Perfect size for preparing trails and planting along fences and field edges

Other uses:

- Road Leveling and Driveway Maintenance
